TITLE 3—THE PRESIDENT EXECUTIVE ORDER 10479

ESTABLISHING THE GOVERNMENT CONTRACT COMMITTEE

WHEREAS it is in the interest of the Nation's economy and security to promote the fullest utilization of all available manpower; and

WHEREAS it is the policy of the United States Government to promote equal employment opportunity for all qualified persons employed or seeking employment on government contracts because such persons are entitled to fair and equitable treatment in all aspects of employment on work paid for from public funds; and

WHEREAS it is the obligation of the contracting agencies of the United States Government and government contractors to insure compliance with, and successful execution of, the equal employment opportunity program of the United States Government; and

WHEREAS existing Executive orders require the government contracting agencies to include in their contracts a provision obligating the government contractor not to discriminate against any employee or applicant for employment because of race, creed, color, or national origin and obligating the government contractor to include a similar provision in all subcontracts; and

WHEREAS a review and analysis of existing practices and procedures of government contracting agencies show that the practices and procedures relating to compliance with the nondiscrimination provisions must be revised and strengthened to eliminate discrimination in all aspects of employment;

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes, and as President of the United States, and pursuant to the authority conferred by and subject to the provisions of section 214 of the act of May 3, 1945, 59 Stat. 134, (31 U. S. C. 691), it is ordered as follows:

SECTION 1. The head of each contracting agency of the Government of the United States shall be primarily responsible for obtaining compliance by any contractor or subcontractor with the

said nondiscrimination provisions of any contract entered into, amended, or modified by his agency and of any subcontract thereunder, and shall take appropriate measures to bring about the said compliance.

SEC. 2. The head of each contracting agency shall take appropriate measures, including but not limited to the establishment of compliance procedures, to carry out the responsibility set forth in section 1 hereof.

SEC. 3. There is hereby established the Government Contract Committee, hereinafter referred to as the Committee. The Committee shall be composed of fourteen members as follows:

SEC. 4. The Committee shall make recommendations to the contracting agencies for improving and making more effective the nondiscrimination provisions of government contracts. All contracting agencies of the Government are directed and authorized to cooperate with the Committee and, to the extent permitted by law, to furnish the Committee such information and assistance as it may require in the performance of its functions under this order. The Committee shall establish such rules as may be necessary for the performance of its functions under this order, and shall make annual or semiannual reports on its progress to the President.

SEC. 5. The Committee may receive complaints of alleged violations of the nondiscrimination provisions of government contracts. Complaints received shall be transmitted by the Committee to the appropriate contracting agencies to be processed in accordance with the agencies' procedure for handling such

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 951—TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

ORDER AMENDING ORDER, AS AMENDED,
REGULATING HANDLING

§ 951.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was

held at Lodi, California, beginning on April 20, 1953, upon proposed amendments to Marketing Agreement No. 93, as amended, and Order No. 51, as amended (7 CFR Part 951), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in California. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended, and as hereby further amended, regulates the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in California in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order, as amended, and as hereby further amended, prescribes, so far as practicable, such different terms applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the grapes covered thereby;

(4) The said order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act; and

(5) All handling of Tokay grapes which are grown in the production area is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found and determined, on the basis hereinafter indicated, that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after such publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). It is necessary, in the public interest, to make this order effective as soon as practicable, so as to facilitate, promote, and maintain orderly marketing of the grapes covered hereunder. Shipments of Tokay grapes grown in San Joaquin and Sacramento Counties will begin to be made in a limited way about the middle of August and in volume soon thereafter. It is necessary therefore, to make this order effective promptly so that it will be operative prior to the date on which regulations may be formulated and issued. In this way, the full benefits of the amended program will be available to producers and handlers throughout the 1953 marketing season. Furthermore, the Industry Committee must be afforded opportunity for the consideration of such changes in the current rules and regulations as may be appropriate in view of the amendatory provisions hereof, and such changes should be in

effect prior to the beginning of the Tokay grape shipping season. The provisions of this order are well known to handlers, the public hearing on the amendments having been held in Lodi, California, on April 20, 21, and 22, 1953, and the recommended decision and final decision having been published on June 26 (18 F. R. 3665), and July 25, 1953 (18 F. R. 4382), respectively. Handlers and producers have received copies of the text of the amendatory order; and compliance with the provisions hereof will not require any advance preparation on the part of persons subject thereto that cannot be completed prior to such effective date.

(c) *Determinations.* It is hereby determined that:

(1) The "Agreement Amending the Marketing Agreement, as Amended, Regulating the Handling of Tokay Grapes Grown in San Joaquin and Sacramento Counties in California," upon which the aforesaid public hearing was held, has been signed by handlers (excluding co-operative associations of producers who were not engaged in processing, distributing, or shipping the grapes covered by this order) who, during the period April 1, 1952, through March 31, 1953, shipped not less than 50 percent of the volume of Tokay grapes covered by said order, as amended and hereby further amended;

(2) The aforesaid agreement, amending the said marketing agreement, as amended, has been executed by handlers who were signatory parties to said marketing agreement and who, during the preceding fiscal year (April 1, 1952, through March 31, 1953), shipped not less than 50 percent of the Tokay grapes, grown in San Joaquin and Sacramento Counties in California, shipped by all handlers signatory to said marketing agreement during such fiscal year;

(3) The issuance of this order, amending the aforesaid order, as amended, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (April 1, 1952, through March 31, 1953), were engaged within the production area specified in said order, as amended, in the production of Tokay grapes for market.

It is therefore ordered, That, on and after the effective date hereof, all handling of Tokay grapes grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Add after § 951.12 *Production area* the following new definitions:

§ 951.13 *Pack.* "Pack" means to place grapes into containers for shipment to market as fresh grapes and to deliver such containers of grapes to a packing platform or shed or to a vehicle for transportation to market or storage. The term "pack" also means to place grapes into a shipping container in a packing shed.

§ 951.14 *Allotment period.* "Allotment period" means any three consecutive days commencing with such day as may be established in a regulation issued pursuant to § 951.61.

§ 951.15 *Day.* "Day" means one calendar day except that Saturday and Sunday shall be considered as one such day.

2. Delete § 951.30 *Compensation* and insert, in lieu thereof, the following:

§ 951.30 *Compensation.* The members of the Industry Committee, and the alternate members of such committee, may be reimbursed for expenses necessarily incurred by them in attending meetings of the said committee and in performing services, necessary in connection with this subpart, at the request of such committee; and they may receive compensation in an amount not in excess of \$10.00 per day for attending each such meeting and for performing such services. The members of the Shippers' Advisory Committee, and the alternate members of such committee, may be reimbursed for expenses necessarily incurred by them in attending meetings of the said committee.

3. Amend § 951.33 *Procedure* by redesignating paragraph (b) as paragraph (c) and adding a new paragraph (b) as follows:

(b) The Industry Committee may vote by mail, telephone or telegraph: *Provided*, That any action taken by the committee on a mail, telephone, or telegraph vote shall be by unanimous vote of all members of the committee or their appropriate alternates. Any vote by telephone or telegraph shall be confirmed in writing. At any assembled meeting, all votes shall be cast in person.

4. Delete paragraph (b) of § 951.52 *Exemptions* and insert, in lieu thereof, the following:

(b) In the event the Secretary issues a regulation pursuant to § 951.51, the Industry Committee shall issue an exemption certificate to any grower who furnishes proof, satisfactory to such committee, that by reason of conditions beyond his control he will be prevented, because of the regulation issued, from shipping or having shipped in fresh fruit channels from a particular vineyard a percentage of his crop of grapes equal to (1) the average percentage of grapes, as determined by the committee, produced in and so shipped from his district during the preceding three seasons or (2) the average percentage of grapes produced in and so shipped from such vineyard during the preceding three seasons, whichever percentage is the greater. The certificate shall permit such grower to ship, or have shipped, in fresh fruit channels, a percentage of his crop of grapes from such vineyard equal to such greater percentage: *Provided*, That as to vineyards having an age of nine years or less, the committee shall each season establish, for the vineyards of each such age, the quantity of grapes, per acre, likely to be shipped from such vineyards during that season and the applicable quantity shall be used in lieu of the quantity of grapes determined by the committee pursuant to subparagraph (1) of this paragraph. In computing the aforesaid quantities that were shipped during the preceding three seasons, there shall be omitted the aggregate quantities

of grapes shipped under exemption certificates.

5. Add after paragraph (d) of § 951.52 a new paragraph (e) as follows:

(e) Exemptions granted under the provisions of this section shall apply only as to regulations issued by the Secretary under § 951.51; and all shipments of grapes under exemption certificates, issued pursuant to this section, shall be subject to, and limited by, such regulations as may be effective under § 951.61 at the time of the respective shipment.

6. Delete §§ 951.60 through 951.70 together with the center headnotes which precede § 951.60 and § 951.70, and insert, in lieu thereof, the following:

REGULATION BY VOLUME

§ 951.60 *Recommendation for volume regulation.* (a) Whenever the Industry Committee finds, after investigation of the factors enumerated in paragraph (b) of this section, that the supply of grapes available for shipment exceeds the demand therefor and that it is advisable to regulate the handling of grapes pursuant to the provisions of §§ 951.60 through 951.72, it shall so recommend to the Secretary. Each such recommendation shall specify the period of time during which such regulation shall be effective and the respective total quantities of grapes which the committee deems advisable to be handled each allotment period during such period of time. The committee shall promptly report its findings and recommendations, together with supporting information, to the Secretary.

(b) In making each such recommendation, the Industry Committee shall give due consideration to the following factors: (1) Market prices for grapes; (2) supply, quality, and condition of grapes in the production area; (3) the supplies of all varieties of grapes on hand in, and en route to, the principal markets; (4) market prices and supplies of competitive fruits, including other varieties of grapes; (5) the probable daily shipments of grapes in the absence of regulation; (6) trend and level of consumer income; and (7) other relevant factors.

(c) The Industry Committee may, at any time, recommend to the Secretary that the quantity of grapes that may be handled during any such allotment period be increased or decreased, or that such regulation be terminated. Any such recommendation shall be supported by the reasons and information relied upon by the committee in making such recommendation.

(d) The Industry Committee shall give reasonable notice to growers and handlers of each meeting to consider recommendations for regulation, or for the modification or termination of regulation, pursuant to the provisions of this section. The committee shall also give prompt notice to growers and handlers of any such recommendation.

§ 951.61 *Issuance of volume regulation.* (a) Whenever the Secretary finds, from the recommendations and information submitted by the Industry Committee, or from other available information,

that to limit the total quantity of grapes that may be handled during one or more allotment periods would tend to effectuate the declared policy of the act, he shall so limit the shipment of grapes. The Secretary may at any time increase or decrease the quantity of grapes which may be handled during an allotment period, or may terminate such regulation: *Provided*, That no decrease in the quantity of grapes which may be handled during an allotment period shall be made effective after the beginning of such allotment period.

(b) The Secretary shall immediately notify the Industry Committee of the issuance of each such regulation, and of each modification or termination thereof; and the committee shall give such notice thereof as may be reasonably calculated to bring such action to the attention of growers and handlers.

§ 951.62 Allotments. (a) Whenever the Secretary has fixed the total quantity of grapes that may be handled during an allotment period, the Industry Committee shall compute, for each person entitled thereto, the quantity of grapes which may be shipped by such person during such period. Such quantity shall be the allotment of such person and shall be in an amount equal to the product obtained by multiplying:

(1) The quantity of grapes fixed by the Secretary as the total quantity of grapes that may be handled during such allotment period, or

(2) The quantity of grapes so fixed by the Secretary less the portion thereof for allocation as adjusted allotment pursuant to § 951.65,

whichever is applicable, by such person's allotment percentage, computed in accordance with § 951.64. The Industry Committee shall notify each such person of his allotment on the day immediately preceding the allotment period.

(b) No person shall ship grapes during any allotment period when grapes are regulated pursuant to § 951.61 unless such person has allotment or adjusted allotment, pursuant to §§ 951.62 through 951.72, to ship such grapes: *Provided*, That allotment shall not be required to deliver grapes to a refrigerated storage warehouse, for storage purposes, within the State of California.

§ 951.63 Application for allotment.

(a) Each person who proposes to ship grapes as the first handler thereof during any period in which grapes may be regulated pursuant to § 951.61 shall submit to the Industry Committee, at such time and in such manner as the committee may prescribe, a written application for allotment. Such application shall be substantiated in such manner and shall be supported by such information as the committee may require, including (1) an accurate description of the location of each vineyard, or portion thereof, from which grapes will be handled by the applicant during the current season; (2) the number of acres and the age of the vines in each such vineyard or portion thereof; (3) the name and address of the producer, or authorized agent, for each such vineyard or portion thereof; (4) the number of standard packages, or the

equivalent thereof, of grapes from each such vineyard, or portion thereof, that were shipped during each of the two preceding seasons; and (5) information identical to that required in subparagraphs (1) through (4) of this paragraph with respect to all other vineyards or portions thereof from which the applicant shipped grapes during either or both of the two preceding seasons. If the applicant does not have the record of shipments of grapes from a particular vineyard or vineyards but can furnish the record for a group of vineyards of which such vineyard or vineyards are a part, he shall set forth such record in his application and the shipments from each such vineyard shall be considered to be equal to the product obtained by multiplying the number of acres contained in that vineyard by the average shipments per acre for such group.

(b) The Industry Committee shall check the accuracy of the information submitted pursuant to paragraph (a) of this section and of § 951.75. If the committee finds that there is an error, omission, or inaccuracy in such information, it shall correct the same and shall notify the applicant, giving the reasons therefor. Upon request, the applicant shall be given an opportunity to discuss with the committee the factors considered in making the correction. If it is determined that an error, omission, or inaccuracy has resulted in a person receiving more or less allotment than that to which such person is entitled under the provisions of this subpart, such person's allotment shall be adjusted, over such period as may be determined by the committee, to the extent required to offset the error, omission, or inaccuracy.

§ 951.64 Allotment percentage. (a) The allotment percentage, of each applicant entitled thereto, for each allotment period shall be seventy-five percent of the percentage obtained by dividing the total grape shipments from such applicant's vineyards, as reported pursuant to subparagraphs (1) through (4) of § 951.63 (a), by the total grape shipments during the preceding two years from vineyards of all applicants, plus twenty-five percent of the percentage obtained by dividing the total quantity of grapes packed by or for such applicant during the three days preceding the day which immediately precedes the allotment period by the total quantity of grapes packed by or for all applicants during such three-day period: *Provided*, That, with respect to the first allotment period each season, the percentage based upon grapes packed shall be computed by using the applicable quantities of grapes packed during the six days preceding the day which immediately precedes such allotment period.

(b) If a person gains or loses the right to ship grapes from a vineyard by reason of a grower's transfer of his grapes from one person to another, there shall be a corresponding increase or decrease in that portion of the respective person's allotment percentage which is based on previous shipments. The person gaining the right so to ship grapes may submit an application to the Industry Committee for such increase, accompanied

by a verification of the transfer by the grower or the person losing the right to ship such grapes. Such increase and decrease shall not be effective for any allotment period unless such application is received by the committee at least two days prior to such period.

(c) An allotment percentage shall be computed for, and allotment issued to, a person only if such person has made application therefor in accordance with the provisions of this section.

§ 951.65 Adjustment of allotment. A portion of the total quantity of grapes fixed by the Secretary as the quantity of grapes that may be handled during an allotment period shall be allocated, as adjusted allotment, to handlers in accordance with the provisions of this section.

(a) Each season, prior to recommending regulation pursuant to § 951.60, the Industry Committee shall establish the quantity of grapes, per acre, which is likely to be shipped during the current season from mature vineyards and separate quantities for vineyards from nine years to one year of age, respectively. In establishing these quantities, the committee shall consider (1) the estimated production of grapes for the current season; (2) the average number of standard packages of grapes, per acre, shipped from the production area during preceding seasons; (3) the estimated total acreage of grapes in the production area during the current and past seasons; (4) the acreage of grapes which have been thinned; (5) production records of mature vineyards and of vineyards from nine years to one year of age; and (6) other relevant factors.

(b) Adjusted allotment shall be allocated to handlers proposing to ship grapes, as first handlers thereof (1) from a vineyard from which grapes were not shipped during one or both of the two preceding seasons, (2) from a vineyard for which records of shipments during one or both of such seasons are not available, or (3) from a vineyard with less shipments per acre during one or both of such seasons than the quantity established by the Industry Committee in accordance with paragraph (a) of this section for vineyards of similar age. The amount of adjusted allotment so allocated to a handler shall be equal to the difference between the allotment to which such handler is entitled pursuant to the provisions of paragraph (a) (1) of § 951.62 and the allotment to which such handler would be entitled pursuant to the provisions of said paragraph (a) (1) if the previous shipments from such vineyard were equal to the applicable quantity established by the committee in accordance with paragraph (a) of this section: *Provided*, That in no event shall such amount exceed the amount of adjusted allotment requested by such handler.

(c) Any handler entitled to adjusted allotment may apply to the Industry Committee, on forms prescribed by it, for such allotment. Such application shall be filed with the committee at least two days prior to the first allotment period for which he desires adjusted allotment and shall contain the following informa-

tion: (1) The identity of each vineyard for which adjusted allotment is requested; (2) the allotment period, or periods, for which such allotment is requested; and (3) the quantity of adjusted allotment requested for each such period.

(d) Any handler, to whom adjusted allotment is allocated for a vineyard, who fails to pack, or have packed, grapes from such vineyard to the extent of at least fifty percent during the first such allotment period, and eighty percent during each subsequent allotment period, of the applicable adjusted allotment, in addition to that portion of his allotment that is based on previous shipments from such vineyard, shall have deducted from allotment issued to him during the next allotment period an amount equivalent to such adjusted allotment. In addition, such handler shall not be entitled to adjusted allotment with respect to such vineyard unless such handler again applies for adjusted allotment thereafter as provided in paragraph (c) of this section. Any quantity of grapes packed from a vineyard during an allotment period in excess of the quantity required to be packed pursuant to this paragraph may be carried forward and used in subsequent allotment periods to meet the packing requirements of this paragraph with respect to such vineyard.

§ 951.66 *Daily shipments during an allotment period.* A handler's daily allotment for any day of an allotment period shall be one-third of the total allotment (including adjusted allotment) issued to him for such allotment period; and a handler's shipments of grapes during any day of such period shall not exceed his daily allotment except by reason of allotment available as the result of the following: (a) An undershipment as provided in § 951.67; (b) an overshipment as provided in § 951.68; (c) an allotment loan as provided in § 951.69; (d) the repayment of allotment as provided in § 951.69.

§ 951.67 *Undershipments.* If, during any day within an allotment period, a handler ships grapes in an amount less than his daily allotment, he may ship during the remainder of such period, or during the allotment period beginning on the next day, a quantity of grapes equal to such undershipment: *Provided*, That the amount of undershipment which such handler may ship on any one day shall not exceed the equivalent of such percentage of the total allotment issued to him for the allotment period during which such undershipment occurred as shall be established by the Industry Committee, or 1,105 standard packages of grapes, whichever is the greater.

§ 951.68 *Overshipments.* During any day within an allotment period, a handler may ship, in addition to his daily allotment, a quantity of grapes equivalent to such percentage of the total allotment issued to him for such period as shall be established by the Industry Committee, or 1,105 standard packages of grapes, whichever is the greater: *Provided*, That overshipments during an al-

lotment period shall be offset by undershipments during such period so that the net overshipment during such period shall not exceed the equivalent of 500 standard packages of grapes. Any such overshipment during an allotment period shall be deducted from the total allotment issued to such handler for the allotment period beginning on the next day.

§ 951.69 *Allotment loans.* (a) A person to whom allotment has been issued may lend such allotment to another person to whom allotment has also been issued. Such loans shall be confirmed to the Industry Committee by each such person within twenty-four hours after the loan agreement has been entered into; and each such agreement shall provide for the repayment of the loan during a specified allotment period of the current marketing season when shipments of grapes are regulated pursuant to § 951.61.

(b) An allotment may be loaned for use only during the allotment period for which such allotment is issued. Persons to whom allotment is repaid may use such allotments only during the allotment period in which the repayment is made.

(c) No allotment which is loaned may again be loaned by the borrower.

(d) The Industry Committee may act on behalf of persons desiring to arrange allotment loans. In each case, the committee shall confirm such transactions immediately after the completion thereof by memorandum addressed to the respective persons, which memorandum shall satisfy the confirmation requirements of paragraph (a) of this section.

(e) Except as provided in this section and in § 951.71, allotments are not transferable.

§ 951.70 *Priority of allotment.* Shipments during an allotment period shall first be applied against allotment issued for such allotment period before being applied against allotment available by reason of an undershipment, allotment loan, or repayment of allotment, in that order.

§ 951.71 *Assignment of allotment.* In connection with each handling of grapes which requires allotment, each handler shall, except with respect to shipments by rail car, at the time of shipment issue to the consignee or purchaser or agent thereof, an assignment of allotment certificate covering each quantity of grapes so handled. Such assignment of allotment certificate shall be on the form, and distributed in the manner, prescribed by the Industry Committee and shall contain the following information: (a) Date of shipment; (b) name and address of consignee or purchaser; (c) number of standard packages of grapes or the equivalent thereof in weight; (d) destination of shipment; (e) the license number or numbers of the truck and trailer transporting such grapes from the handler's place of business; and (f) the name of the handler issuing the assignment certificate. Such assignment shall also contain a certification to the United States Department of Agriculture and to the Industry Committee as to the

truthfulness of the information shown thereon.

§ 951.72 *Right of appeal.* If any grower or handler is dissatisfied with any action taken by the Industry Committee pursuant to §§ 951.60 through 951.72, such grower or handler may appeal to the Secretary: *Provided*, That such appeal shall be made promptly. Any such appeal shall be made by filing with the Industry Committee a written notice of appeal stating the grounds upon which the appeal is made. Thereupon, the Industry Committee shall review the action being contested and shall determine whether and to what extent its original action should be revised. If the committee affirms its original action, it shall promptly forward the notice of appeal to the Secretary together with all data and information applicable thereto. The Secretary may, upon an appeal made as aforesaid, affirm, modify, or reverse the action of the Industry Committee and such action by the Secretary shall be final.

7. Delete § 951.75 Reports and insert, in lieu thereof, the following:

§ 951.75 *Reports.* For the purpose of enabling the Industry Committee to perform its functions under this subpart, each handler shall furnish, or authorize any or all railroad, transportation, and cold storage agencies to furnish, to the confidential employees of the Industry Committee, complete information, in such form and at such times and substantiated in such manner as shall be prescribed by the Industry Committee, with regard to each shipment of grapes. Such information may include (a) a report of all grapes packed by or for such handler; (b) a report of each shipment outside the production area, except the delivery of grapes to a refrigerated storage warehouse for storage purposes within the State of California, which report shall include all grapes shipped from such storage and shall contain with respect to each such shipment the date and time of shipment, the name and address of the shipper, the car or truck license number, the number of standard packages of grapes or the billing weight thereof, the grade of such grapes, the name of the grower for whom such grapes are shipped, the place where the shipment originated, the destination and any diversion of the shipment made through any and all agencies; (c) a report of each delivery of grapes to a refrigerated storage warehouse, for storage purposes, within the State of California showing the name and address of the shipper, the location of the storage warehouse, and the number of standard packages of grapes or the billing weight thereof; (d) a report of each shipment made within the area of production showing the name and address of the shipper, the name and address of the consignee or purchaser, and the number of standard packages of grapes or the billing weight of the shipment; (e) a report by vineyards of all grapes packed from vineyards for which adjusted allotment was issued under the provisions of § 951.65; and (f) such other reports as the Industry Committee may require.

Such information may be compiled by the confidential employees and made available in summary form to all handlers and other interested persons who request a copy thereof: *Provided*, That such compilation or summary shall not reveal the identity of the individual furnishing the information. Such confidential employees shall not disclose, to any person other than the Secretary, any information that may be obtained pursuant to this section, except in the aforesaid manner.

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

DESIGNATION OF AREAS IN WHICH SWINE ARE AFFECTED

Pursuant to the authority conferred upon the Administrator of the Agricultural Research Administration by § 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), § 76.27a of said Subpart B (18 F. R. 3829, as amended) is hereby amended to read as follows:

§ 76.27a *Designation of areas in which swine are affected with vesicular exanthema.* The following areas are hereby designated as areas in which swine are affected with vesicular exanthema:

The State of California;
The Town of Manchester in Hartford County, in Connecticut;
Androscoggin, Cumberland, Kennebec, Somerset, and York Counties, in Maine;

That area consisting of Hampden, Worcester, Middlesex, Essex, Suffolk, Norfolk, Bristol, and Plymouth Counties, in Massachusetts;

Section 20, Township One North, Range 26 East, in Yellowstone County, in Montana; Bergen, Hudson, Hunterdon, and Morris Counties and that area consisting of Union, Middlesex, Monmouth, Ocean, Burlington, Camden, Gloucester, Atlantic, and Cape May Counties, in New Jersey;

Poughkeepsie Township, in Dutchess County, and that area in Clarkstown Township lying north of New York State Route No. 59, in Rockland County, in New York; Swan Creek Township in Fulton County, in Ohio;

Bucks and Delaware Counties, in Pennsylvania;

That area in Atascosa County lying west of State Highway No. 346 and north of State Highway No. 173, that area in Bell County

lying north of U. S. Highway No. 190 and west of State Highways No. 36 and No. 317, that area in Dallas County lying south of State Highway No. 183 and west of the City of Dallas and U. S. Highway No. 67, and that area in Wichita County lying south of U. S. Highway No. 287 and east of U. S. Highway No. 281, in Texas.

Effective date. The foregoing amendment shall become effective upon issuance.

Section 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), quarantines the areas so designated.

The amendment designates the following as areas in which swine are affected with vesicular exanthema in addition to the areas heretofore designated:

Section 20, Township One North, Range 26 East, in Yellowstone County, in Montana; Swan Creek Township in Fulton County, in Ohio.

Hereafter, the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636 et seq), apply to these areas.

The amendment excludes from the areas heretofore designated as areas in which swine are affected with vesicular exanthema:

Paris Township in Kent County, and Brownstown and Huron Townships in Wayne County, in Michigan;

That area in Bexar County lying south of Highway Loop 13 (South-west Military Drive) and between U. S. Highways No. 281 and No. 81, in Texas;

Sections 31-32, Township 4 North, Range One West, in Davis County, in Utah.

The Administrator of the Agricultural Research Administration has determined that swine in these areas are no longer affected with the disease, and that the quarantine of such areas is no longer required to prevent the dissemination thereof. Accordingly, these areas are no longer quarantined under said § 76.27, and the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR, Part 76, Subpart B, as amended (18 F. R. 3636 et seq), no longer apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas contained in said Subpart B apply thereto.

The effect of the amendment is to impose certain further restrictions necessary to prevent the spread of vesicular exanthema, a contagious, infectious, and communicable disease of swine, and to relieve certain restrictions presently imposed. The amendment must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefits to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B—Economic Regulations

[Reg. No. ER-188]

PART 298—CLASSIFICATION AND EXEMPTION OF AIR TAXI OPERATORS

OPERATIONS BY AIR TAXI OPERATORS OVER CERTIFICATED HELICOPTER PASSENGER ROUTES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 12th day of August 1953.

On January 11, 1952, the Board adopted Part 298 to its Economic Regulations, which established a classification of air carriers known as air taxi operators, and granted to such air taxi operators certain exemption authority. The principal restriction on the authority therein contained in respect of operations within the continental limits of the United States was that no service should be offered or performed by an air taxi operator between any two points between which a scheduled helicopter passenger service is provided by the holder of a certificate of public convenience and necessity authorizing such service. "Point" as used in the regulation meant "any airport or place where aircraft may be landed or taken off, including the area within a 25-mile radius of such airport or place".

By petition filed on June 12, 1952, National Air Taxi Conference requested the Board to initiate rule-making proceedings looking to the repeal of this restriction or the amendment of the part so as to permit irregular air taxi service between points served by helicopter passenger carriers.

This proposal was circulated to the public under date of July 14, 1952, as a Notice of Proposed Rule-Making in response to petition, and concurrently therewith a Special Economic Regulation was issued permitting air taxi operators to perform irregular service between points between which scheduled helicopter service is provided by the holder of a certificate of public convenience and necessity authorizing such service. The effect of this special regulation, which was to be in force as an interim measure pending the reconsideration by the Board of the restriction on Part 298, was to liberalize in a certain measure the operating authority granted in Part 298. However, while irregular operations were permitted between points served by helicopter passenger carriers, the definition of "point" was left unchanged, with the result that operations otherwise than on

an irregular basis would be foreclosed within and between areas of considerable size in those metropolitan districts in which authorized helicopter passenger service is now or shortly will be performed.

The Board, after having given full consideration to the comment received, now desires to incorporate the principle of the special interim regulation as a permanent amendment to Part 298 and, in addition, to narrow the word "point" as used in the regulation to an area within a radius of three miles of an airport.

In granting this further liberalization from the restriction initially contained in Part 298, the Board is confining the exemption authority in this area to operators of fixed wing aircraft. Thus, while uncertificated helicopter operators who otherwise satisfy the conditions of Part 298 will be permitted to operate such aircraft between points not served by certificated passenger helicopter services, they will be entirely prohibited from competing in any respect with certificated helicopter carriers.

Interested persons have been afforded an opportunity to participate in the making of this rule, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board finds that, except to the extent provided in Part 298 as hereby amended, the enforcement of the provisions of Title IV of the Civil Aeronautics Act of 1938, as amended, and the rules and regulations issued thereunder is or would be an undue burden on air taxi operators by reason of the limited extent of and unusual circumstances affecting the operations of such class of air carriers and is not in the public interest. Accordingly, the Civil Aeronautics Board hereby amends Part 298 of the Economic Regulations (14 CFR 298) effective September 16, 1953, as follows:

1. By amending § 298.1 (a) (3) to read as follows:

(3) "Point", when used in connection with territory or possession of the United States, means any airport or place where aircraft may be landed or taken off, including the area within a 25-mile radius of such airport or place; when used in connection with the continental United States (excluding Alaska), it shall have a similar meaning but shall be limited to the area within a 3-mile radius of such airport or place.

2. By amending § 298.7 (b) to read as follows:

(b) Within the territories or within the possessions of the United States, other than the Territory of Alaska, or between any two points between which scheduled helicopter passenger service is provided by the holder of a certificate of public convenience and necessity authorizing such service, no air taxi operator shall operate or hold out to the public expressly or by course of conduct that it operates therein, one or more aircraft between designated points or within a designated point, regularly or with a reasonable degree of regularity, upon

which aircraft it accepts for transportation, for compensation or hire, such members of the public as apply therefor or such property as the public offers. Service shall be deemed to be regular within the meaning of this paragraph unless it is of such infrequency as to preclude an implication of a uniform pattern or normal consistency of operation between, or within, such designated points.

3. By amending § 298.7 (d) to read as follows:

(d) No service by helicopter shall be offered or performed by an air taxi operator between any two points between which scheduled helicopter service is provided by the holder of a certificate of public convenience and necessity authorizing such service.

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. (Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, General Shoe Corporation, Nashville, Tenn., Docket 6001, July 13, 1953.]

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on June 17, 1952, issued and subsequently served its

complaint in this proceeding upon respondent General Shoe Corporation, a corporation, charging it with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of said act. After the service of said complaint and the filing of respondent's answer thereto, hearings were held at which testimony and other evidence in support of the allegations of said complaint were introduced before a hearing examiner of the Commission theretofore duly designated by it and named in the "Notice" appended to the complaint at the time of its issuance, and said testimony and other evidence were duly recorded and filed in the office of the Commission. Respondent elected to offer no evidence on its own behalf, except the cross-examination of witnesses produced against it. Thereafter the proceeding regularly came on for final consideration by said hearing examiner on the complaint, the answer thereto, and testimony and other evidence, and said hearing examiner on October 13, 1952, filed his initial decision.

The Commission, having reason to believe that the order contained in said initial decision did not constitute an appropriate disposition of the proceeding, on November 12, 1952, issued and thereafter served upon the parties its order placing the case upon the Commission's own docket for review. Thereafter the Commission, having considered the entire record and having prepared a tentative order, caused copies of the said tentative order to be served upon respondent together with its order issued on March 31, 1953, granting leave to respondent to file, within twenty days after service thereof, objections to the changes in the order continued in the hearing examiner's initial decision as shown in the tentative order of the Commission.

No objections having been filed, the proceeding came on for final consideration by the Commission upon the record herein for review and the Commission, having duly considered the matter and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes the following findings as to the facts,¹ conclusion drawn therefrom,¹ and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondent General Shoe Corporation, a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's shoes designated "Storybook Shoes," "Acrobat Shoes" and "Acrobat Safety Shoes," or any other shoes of similar construction, irrespective of the designation applied thereto, do forthwith cease and desist from:

(1) Representing, directly or by implication that the wearing of respondent's "Storybook Shoes" will hold the

foot in its natural position, keep the foot properly aligned, hold the foot accurately in the shoe, insure correct growth of the foot, provides strong support for the arch of the foot, guard against foot ills, or provide better balance.

(2) Representing, directly or by implication, that the resilient pads at the heel and arch in its children's shoes prevent forward skid, give arch support, cushion jolts, or protect nerve terminals of the nerve-ends in the heel.

(3) Representing, directly or by implication, that the wearing of respondent's "Acrobat Shoes" gives growing feet the proper foundation and combination of features for foot health; will keep young feet healthy, eliminate pronation of ankles or keep young ankles straight or strong.

(4) Representing, directly or by implication, that the wearing of respondent's "Acrobat Safety Shoes" will start children in good walking habits; will set the foot in a straight line, gives extra ankle support or guides the ankle straight, or will have any value in the building of muscles or strong, sound feet.

(5) Using the word "health" or any other word or term of similar meaning alone or in combination with any other word or words, to designate, describe or refer to respondent's shoes, or representing in any manner that the wearing of respondent's shoes will prevent or cure diseases or abnormalities of the feet, keep the feet healthy, prevent the development of abnormalities, or correct any disorder of the feet.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

Issued: July 13, 1953.

By the Commission.²

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

**Chapter II—Corps of Engineers,
Department of the Army**

PART 203—BRIDGE REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.85 is hereby amended to provide special regulations for the State of Rhode Island highway bridge across the Sakonnet River, as follows:

§ 203.85 *Sakonnet River, R. I.; State of Rhode Island highway bridge and New York, New Haven and Hartford Railroad Company bridge at Tiverton.* (a) The owner of or agency controlling each bridge shall maintain in good and efficient order the drawspan and the machinery and appliances for operating the same and for assisting vessels while passing through the draw. The owner of or agency controlling each bridge shall also provide and maintain at the drawspan such number of draw tenders or operators as may be necessary to open and close the same promptly; and shall also provide and maintain in good order on the bridge piers or fenders such fixtures as may be necessary to vessels in mooring or making fast while waiting for the drawspan to open.

(b) The signal for opening the draw of each of these bridges shall be three short blasts of a whistle or horn. This signal shall be answered by one long blast of a whistle or horn on the bridge when the operation of opening is commenced, or, if the draw cannot be opened promptly, by three long blasts and in addition a red flag or ball by day and a red light by night shall be conspicuously displayed on the bridge.

(c) Except as otherwise provided in paragraphs (d) and (h) of this section the draw of each bridge shall be immediately opened upon receiving the prescribed signal for the passage of vessels at any hour of the day or night.

(d) Exceptions: (1) When a train which will entirely cross the railroad bridge before stopping has reached the distance signal of the bridge and is in motion toward the bridge, the train may continue across the bridge, but in no case, except as provided in subparagraph (2) of this paragraph, shall the opening of the bridge for a vessel be delayed more than four minutes after the signal is given.

(2) When the draw of either of the bridges shall have been open for 10 minutes or longer, it may be closed for the crossing of trains, cars, vehicles, or persons, if any be waiting to cross, and after being so closed for 10 minutes or for such shorter time as may be necessary for the trains, cars, vehicles, or persons to cross, it shall again be opened promptly for the passage of all vessels if there be any such desiring to pass. The length of time that a draw shall have been open shall be computed from the time that the draw is fully open, and the length of time that a draw has been open shall be computed from the time that the draw ceases to move in closing.

(3) The exceptions contained in this paragraph shall not apply to vessels owned or operated by the United States, vessels in distress, and vessels employed for police and fire protection by any town or municipality touching upon Sakonnet River. All such United States and municipal vessels, and vessels in distress, shall be passed through the draws of the bridges at any hour of the day or night.

(e) For every vessel that cannot pass a closed bridge the operation of the draw shall afford full horizontal and vertical clearance in the draw opening regardless of the size or requirements of the passing vessel.

(f) Trains, cars, vehicles, or persons shall not be stopped on a bridge for the purpose of delaying its opening, nor shall watercraft be so handled or placed as to delay the opening or closing of the draw, but all passage over, under, or through a draw shall be prompt to prevent delay to either land or water traffic.

(g) The general regulations contained in paragraphs (a) to (f), inclusive, of this section shall apply to each bridge except as modified by the special regulation contained in paragraph (h) of this section. The special regulations shall not apply to vessels owned or operated by the United States, a vessel in distress, or to vessels employed for police or fire protection by any town or municipality touching upon Sakonnet River. All such United States and mu-

nicipal vessels, and vessels in distress, shall be passed through the draws of the bridges during the closed period.

(h) State of Rhode Island highway bridge: From 7:10 a. m. to 7:40 a. m., Monday through Friday, inclusive, the draw of the highway bridge will not be required to be opened for the passage of vessels.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter C—Areas Subject to Special Laws [Circular No. 1855]

PART 115—REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS IN OREGON

PERMITS FOR RIGHTS-OF-WAY FOR LOGGING ROADS; STATEMENT OF POLICY

Section 115.155 is amended by adding at the end thereof two new paragraphs, as follows:

§ 115.155 *Statement of policy.* * * *

(h) Where in the judgment of the regional administrator there is a good prospect of arriving at a long term agreement, short term revocable right-of-way permits may be issued by the regional

administrator when: (1) The applicant has consummated with the Bureau of Land Management pursuant to either § 115.165 or § 115.162 one or more road agreements on a substantial road system, or, (2) the applicant, in the opinion of the regional administrator, is conducting negotiations for a long term agreement in good faith. Such right-of-way permits shall be for two years, subject to one-year extensions. Extensions shall be granted when the regional administrator deems such action to be in the interest of the Government. The permit shall specify the volume of timber which may be carried over the right-of-way and the area from which such timber may be logged. The applicant must comply with § 115.162 (a) (1) and (2), and (d) to the extent that rights-of-way and road use rights are needed to remove Government timber offered for sale during the period for which the short term right-of-way is granted.

(i) The regional administrator may, in his discretion, issue to private operators rights-of-way across O. and C. lands, needed for the conduct of salvage operations, for a period not to exceed five years. A salvage operation as used in this paragraph means the removal of trees injured or killed by windstorms, insect infestation, disease, or fire, together with any adjacent green timber needed to make an economic logging show. As a condition of the granting of such rights-of-way, the operator will be required, when the regional administrator deems it necessary, to grant to the United States and its licensees for the conduct of salvage operations on O. and C. lands for a period not to exceed five years, rights-of-way across lands controlled directly or indirectly by him and to grant the right to use to the extent indicated in §§ 115.163 and 115.164 any portions of the road system controlled directly or indirectly by the private operator which is adequate or can economically be made adequate to accommodate the requirements of both the operator and of the United States and its licensees.

PART 115—REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS IN OREGON

PERMITS FOR RIGHTS-OF-WAY FOR LOGGING ROADS; TRESPASS

Section 115.160 is amended to read as follows:

§ 115.160 *Trespass.* The mere filing of an application under §§ 115.154 to 115.179 does not authorize the applicant to use the right-of-way in any manner or for any purpose until written permis-

sion therefor has been duly executed by the regional administrator and delivered to the applicant. Any unauthorized use of O. and C. land constitutes a trespass for which the trespasser is liable in damages to the United States. Where there has been such a trespass, no permit shall be issued to the alleged trespasser unless (a) the trespass claim is fully satisfied; or (b) the alleged trespasser files a bond conditioned upon payment of the amount of damages found by the regional administrator, or upon appeal by the Secretary of the Interior or his delegate, to be due the United States; or (c) the regional administrator finds in writing that there is a legitimate dispute as to the fact of the alleged trespasser's liability or as to the extent of his liability and the trespasser files a bond guaranteeing payment of the amount found by a court of competent jurisdiction to be due the United States.

PART 288—GENERAL TRESPASS REGULATIONS

SALE, LEASE OR PERMIT TO TRESPASSER

The following new centerhead and section are added:

SALE, LEASE OR PERMIT TO TRESPASSER

§ 288.12 *When timber or material may be sold, or a lease or permit issued, to a trespasser.* (a) For the purpose of this section, a trespasser is a person who is responsible for the unlawful use of or injury to property of the United States.

(b) No sale of timber or material will be made, and no permit or license will be issued, to a trespasser who has not satisfied his liability to the United States, except where:

(1) The Government has seized the materials cut, harvested, removed, or mined in trespass and the sale is made to the person who allegedly committed the trespass, at not less than the appraised value of the materials at the time of seizure, and without relieving the trespasser of liability for trespass damages to the extent that such damages exceed the amount paid for the materials; or

(2) The alleged trespasser files a bond conditioned upon payment of the amount of damages found by the regional administrator, or upon appeal by the Secretary of the Interior or his delegate, to be due the United States; or

(3) The regional administrator finds in writing that there is a legitimate dispute as to the fact of the alleged tres-

passer's liability, or as to the extent of liability, or that the extent of the damages has not yet been determined, and the trespasser files a bond guaranteeing payment of the amount found by a court of competent jurisdiction to be due the United States; or

(4) The regional administrator finds in writing that:

(i) There is no other qualified bidder or that no other qualified bidder will meet the high bid, and

(ii) The sale or lease to the alleged trespasser is necessary to protect substantially the interest of the Government, either by preventing deterioration of or damage to the resource to be sold or loss or damage to other resources, or by accepting a highly advantageous price, and

(iii) The timber management or other resource management program of the Government will not be adversely affected by the sale.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 8333]

PART 1—PRACTICE AND PROCEDURE

DAYTIME SKYWAVE TRANSMISSIONS OF STANDARD BROADCAST STATIONS

In the matter of promulgation of rules and regulations and Standards of Good Engineering Practice concerning daytime skywave transmissions of standard broadcast stations; Docket No. 8333.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of August 1953:

The Commission having under consideration an order in the above-entitled case adopted on December 4, 1950; and footnote 10 b to § 1.371 of its rules and regulations relating to the acceptance of applications; and

It appearing, that as a result of the above order the policy of the Commission to avoid the making of new daytime or limited-time assignments on the clear channels which might not conform to the rules and regulations and Standards of Good Engineering Practice which might be adopted as a result of the proceedings in Docket No. 8333 was codified as footnote 10 b to § 1.371 of the rules and regulations; and

It further appearing, that footnote 10b to § 1.371 presently allows the processing of applications for unlimited-time stations on the clear channels, even though

such stations might operate with different power and/or antenna daytime and nighttime; and

It further appearing, that further authorization of such stations may render difficult the proper formulation and effectuation of any new rules which might be adopted as a result of this proceeding, because such stations may incur financial and contractual commitments in reliance on their extended daytime coverage which would be a serious obstacle to their reverting to an operation with a smaller daytime service area, and may develop a listening audience in the extended area which they serve which might be discommoded by any future withdrawal of that service in the event that Docket No. 8333 results in the adoption of rules and regulations and Standards of Good Engineering Practice which would require such stations to restrict their daytime coverage; and

It further appearing, that the amendment of footnote 10b to § 1.371 of the Commission's rules adopted herein is procedural in nature, and may, pursuant to the provisions of section 4 of the Administrative Procedure Act, be adopted and made effective immediately;

It is therefore ordered, That, pursuant to sections 4 (i), 303 (c), 303 (f), 303 (h) and 303 (r) of the Communications Act of 1934, as amended, effective immediately footnote 10b to § 1.371 of the rules and regulations of this Commission is amended by the addition of a new subsection (d) so that the footnote henceforth will read as follows:

^{10b} Pending conclusion of the proceeding in Docket No. 8333 action will be withheld on all of the following types of applications: (a) Applications whether by existing stations or applicants for new stations proposing new daytime or limited-time assignments on any of the frequencies specified in § 3.25 (a) and (b) of this chapter; (b) applications from existing daytime or limited-time stations presently assigned to a frequency specified in § 3.25 (a) and (b) of this chapter proposing an increase in the power of that assignment or a change of antenna pattern resulting in an increase in radiation towards any Class I station; (c) applications from existing daytime or limited-time stations presently assigned to a frequency specified in § 3.25 (a) and (b) of this chapter proposing a change in that assignment involving a substantial change in transmitter location, and (d) applications either by existing stations or applicants for new stations proposing unlimited time Class II assignments on any of the frequencies specified in § 3.25 (a) and (b) of this chapter which would operate differently in the daytime from the operation proposed to be used nighttime.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 10581]

FILING AND ACTION ON APPLICATIONS FOR BROADCAST FACILITIES

EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of §§ 1.304, 1.382, and 1.387 of the Commission's rules and regulations relating to filing and action on applications for broadcast facilities; Docket No. 10581.

1. The Commission has under consideration the request filed August 6, 1953 by the Federal Communications Bar Association for an extension of time to September 15, 1953 in which to file

comments in the above-entitled proceeding.

2. The Federal Communications Bar Association states that its Committee on Practice and Procedure has reported to the Executive Committee that there is substantial disagreement among members of the Bar with respect to the desirability of the amendments proposed; and that the Association proposes to poll its membership in order that all views may be considered and the Commission fully advised. It is stated that it will not be possible to file such material in the proceeding by August 10, 1953, the date specified for the filing of comments; and, accordingly, it is requested that the time for filing such comments be extended to September 15, 1953.

3. It appears that an extension of the time for filing comments in this proceeding would serve the public interest.

4. In view of the foregoing, *it is ordered*, That, pursuant to the authority contained in section 0.143 (h) of the Commission's rules and regulations, the time for filing comments in the above-entitled proceeding is extended to September 15, 1953.

RECORDS TO BE KEPT BY EMPLOYERS

NOTICE OF EXCEPTION FROM RECORD-KEEPING REQUIREMENTS TO EMPLOYERS OF HOMEWORKERS IN THE GLOVE INDUSTRY IN STATE OF NEW YORK

Section 516.21 (c) of Regulations, Part 516 (29 CFR, Chapter V), issued pursuant to section 11 (c) of the Fair Labor Standards Act of 1938, as amended, (sec. 11 (c), 52 Stat. 1060; 29 U. S. C. 211 (c)) requires that each employer obtain a homemaker's handbook from the Wage and Hour Division for each homemaker employed by him. The information required therein must be entered by the employer or the person distributing or collecting homework on behalf of such employer each time work is given to, or received from, a homemaker. The handbook must remain in the possession of the homemaker until filled or until the homemaker's services are terminated. It must then be returned to the employer for preservation in accordance with the regulations.

The National Association of Leather Glove Manufacturers, Inc., has petitioned in writing to the Administrator for relief from the provisions of § 516.21 (c) and § 621.108 for the following reasons.

Homework Order No. 4 of the Department of Labor, State of New York, requires that each homemaker in the glove industry in that State shall have in his or her possession a handbook issued by that Department. The information that must be entered in the handbook of the New York Department of Labor is the same as that which must be entered in the handbook of the Wage and Hour Division. The handbooks of the New York Department of Labor must be returned to that Department when filled or their use discontinued. The handbooks in the homemaker's possession and those filed with the New York Department of Labor will be available for inspection by a duly authorized representative of the Administrator of the Wage and Hour Division.

Upon the basis of the information supplied by the petitioners and other information available to the Administrator, it appears that the relief for which petitioners have applied will avoid duplication in record-keeping and will not hamper or interfere with the enforcement of the provisions of the Fair Labor Standards Act or any regulations or orders issued thereunder. It also appears that the handbooks of the New York Department of Labor, when issued, will have fastened in them the "Notice to Employer and the Home Worker" contained in the handbooks of the Wage and Hour Division. Therefore, employers who maintain handbooks for homeworkers in the glove industry in accordance with the requirements of the Department of Labor, State of New York, are, pursuant to § 516.9 of regulations, Part 516, relieved of the requirements of § 516.21 (c) and § 621.108 of regulation, Part 621 with respect to handbooks of the Wage and Hour Division for such homeworkers.

Signed at Washington, D. C., this 11th day of August 1953.

F. GRANVILLE GRIMES, Jr.,
Acting Administrator,
Wage and Hour Division.

EAST TENNESSEE NATURAL GAS CO.

NOTICE OF APPLICATION

AUGUST 12, 1953.

Take notice that East Tennessee Natural Gas Company (Applicant), a Tennessee corporation having its principal place of business near Knoxville, Tennessee, filed, on August 3, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas facilities as hereinafter described.

Applicant proposes to construct and operate approximately 2½ miles of 4-inch pipe line, together with a physical connection and metering and regulating equipment, extending from a point of connection on Applicant's existing "Victor Chemical" lateral in Maury County, Tennessee, to a point on or near the premises of the Virginia-Carolina Chemical Corporation's plant in said Maury County. Applicant's "Victor Chemical" lateral is connected to Applicant's existing "Columbia" lateral which, in turn, is connected to Applicant's existing 16-inch pipe line in Lawrence County, Tennessee. SECURITIES AND EXCHANGE COMMISSION

[File No. 24W-1630]

PIONEER ENTERPRISES, INC.

ORDER DENYING EXEMPTION AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 11, 1953.

Pioneer Enterprises, Inc., having filed, on July 28, 1953, with the Commission a notification on Form 1-A relating to an offering of 39,348 shares of its stock for the purpose of obtaining an exemption from the registration provisions of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof, and Regulation A promulgated thereunder, and

The Commission has reasonable cause to believe that the terms and conditions of said Regulation A have not been complied with, in that the notification on Form 1-A and the offering circular omit to state material facts necessary to make the statements made, in the light of the circumstances under which they are made, not misleading; namely,

(1) Failure to disclose the total amount of shares sold in violation of the act for which a contingent liability exists and which forms the basis for the present offering.

(2) Failure to disclose the material interests of the officers and directors in the issuer as required by Rule 219 (c) (2).

(3) Failure to value the investments of the issuer, for which no market exists and which comprise its principal assets, in accordance with generally accepted principles of accounting, in that (a) the stock of Natural Resources Corporation was valued without reference to its cost but at an amount equal to the price at which Natural Resources Corporation is offering its shares to the public; (b) the stock of the Clarvan Corporation was valued at an amount equal to what the President of the issuer "believed to be an obtainable public offering price" although the cost of such shares was considerably below such amount and although the issuer did in fact sell a substantial portion of such shares below such value, and (c) the royalty interest in Fashions for Industry is valued at an amount which is unsupported by any facts relating to its value,

(4) Failure to disclose that the issuer, because of its financial position and particularly its lack of cash and of assets which can readily be converted into cash, will be unable to fulfill its offer of rescission should a substantial number accept its offer;

(5) Failure to include financial statements, in accordance with Rule 219 (c) (6), which accurately and adequately reflect the issuer's financial condition with respect to the balance sheet furnished at April 30, 1953, and with respect to material transactions subsequent to that date;

(6) The statement that the issuer intends to offer its stock at \$10 per share once the rescission offer is completed; such statement misrepresents to the stockholder that the value of the Pioneer stock is \$10 a share when there appears to be no basis for such increased price;

(7) The statement in the postscript to the offering circular which indicates that the Commission has participated in the preparation of the offering circular and which implies that the Commission has passed upon the accuracy or completeness of the circular.

The use of the foregoing in connection with any offering of the shares to which the notification relates would operate as a fraud or deceit upon the offerees thereof;

It is ordered, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, that the conditional exemption under Regulation A be, and it hereby is, denied.

Notice is hereby given that, upon receipt of a written request, the Commission will set the matter down for hearing within twenty days after receipt of such request, at a place to be designated by the Commission, for the purpose of determining whether said order of denial shall be vacated, and that notice of the time and place for such hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Pioneer Enterprises, Inc., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

Secretary.
